EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Alex L. Yip (Reg. No. 34,759) on February 23, 2005.

The application has been amended as follows:

In the Abstract:

The Abstract has been replaced by:

-- A multimedia information and control system in a vehicle enables a user to access information concerning the vehicle and to control vehicle functions in an efficient manner. In addition, the system monitors usage of vehicle components, and alerts a user when it is time to service the components, thereby properly maintaining the components. The alert may comprise a textual, audio and/or visual message.--

In the claims:

In claim 13, line 6, after "at least a duration", --and a rate at which the engine runs-- has been added.

In claim 18, line 5, after "at least a duration", --and a rate at which the engine runs-- has been added.

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The present application relates to control method system for a vehicle that enables a user to access information concerning the vehicle and to control vehicle functions in an efficient manner by monitoring usage of vehicle components, and alerts a user when it is time to service the components. According to the claimed invention, there is provided determining a measure which indicates an extent of performance degradation of a vehicle component, including an engine, due to an operation of the vehicle, the measure being a function of at least a duration and a rate at which the engine runs, wherein the duration includes a time during which the engine runs at a rate exceeding a predetermined rate. According further to the claimed invention, the duration is added to a cumulative duration and when the cumulative duration exceeds a predetermined an alert is provided and a selectable option is displayed on a display element. The aforementioned limitations and combination thereof are taught by the prior art. In light of the foregoing, the claims of the present application are found to be patentable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jacques H Louis-Jacques whose telephone number is 703-305-9757. The examiner can normally be reached on M-Th 6:30 AM to 5:00 PM.
